

Step 1: Download and set-up Ventoy to create an easy to use bootable USB drive

Step 2: Download Kali Live ISO and put it in the bootable USB Drive

Step 3: Enter Boot Menu on PC start-up by pressing Boot Menu key (**esc/f12/etc**, vendor specific)

Step 4: Boot from the Ventoy USB

Step 5: Choose Kali Live ISO

Step 6: Select Boot in normal mode

Step 7: Choose Live system (amd64)

Step 8: Kali has been successfully booted
